

TFW FOOD SERVICES CASHLESS CATERING

We are delighted to offer this innovative solution to your school.

Cashless payments give you, as a parent, full control over your child's spending on school lunches. No more looking for change, no more wondering where and what they are eating...

With the cashless system comes a simple and innovative way for you to pay for your child's nutritious and healthy school meals supplied by TFW Food Services.

How it works:

The first step is to get a TFW contactless card to use in the system. To do this you just open an online account with TFW...

- Through an online account you manage your child's card. You can manage multiple children's cards from just one account.
- The card is topped up online using a secure payment gateway with processing done by Sage Pay. Example top up by €20.00
- You can also top up with cash at the school canteen.
- At the school your child selects their meal and simply presents the card to the cashier who taps the card to a reader.
- The card balance is updated with the cost of the meal. Example €2.50
- Back online you can see the transaction and the card(s) balances in your account.
 - Super Healthy Lunch | €2.50 | 02/09/2020 | 12:35
 - Balance €17.50
- Top up when you want.
 - Thank you, you have topped up card no. TFW-2417-8512 with €20.00
 - €20 Top Up | 15/09/2020 | 03:30 | TFW-2417-8512
- Set a daily spending limit.

Know that your money is being spent the way you want.

Lost cards can be reported online and easily cancelled.

New cards issue the next day!

Privacy matters: Your online account is secured on a server offering SSL encryption and is fully compliant with data regulations including EU GDPR guidelines. No home address, telephone number or bank card details are stored on the server.
